

Reese, Badger, Melissa, Tim, and Alanna

“Thank you!” These two words cannot begin to express how much the generosity of this community is truly appreciated. “Project Thunder” was the fundraising project to help Reese get his diabetic alert dog and now this dream is coming true. “Badger,” Reese’s name for his new dog, joined our family on Wednesday, May 31, and will help Reese’s quality of life by providing independence, companionship, and lifesaving care. His dog’s official, complete name is Neverest Thunder Knight Badger.

So many people and organizations have given to Reese’s fund and we can’t possibly thank everyone individually, but please know that we are grateful from the bottom of our hearts. We especially want to thank the SKDS family — faculty, staff, classmates, students, parents, Builders Club, Home and School —and also the SKD Parish members and especially the Christian Women. If it wasn’t for all of you, Badger would never have joined the Schuett family.

Badger is 9 weeks old and now the real work begins! With the help of trainer Kelsey Mehlhoff, Badger will continue to be trained as a Diabetic Alert Dog (DAD). It will take almost a year before Badger completes his training and then you will see him with Reese wherever he goes. What peace of mind that will bring!

We are so grateful for everyone’s support,

The Schuetts
